PROFESSIONAL SUMMARY

Computer Science undergraduate and full-stack web developer with hands-on experience in React.js, Express.js, MongoDB, and modern JavaScript. Delivered multiple end-to-end projects involving RESTful APIs, JWT authentication, responsive interfaces, and database-driven workflows while following CI/CD workflow.

SKILLS

Frontend : JavaScript, React.js, TailwindCSS, Bootstrap

Backend : Node.js, Express.js, MongoDB RESTful API, JWT Authentication

Tools/Softwares : Git, GitHub, MongoDB Compass, Chrome DevTools, Web Socket, Postman, CI/CD Pipeline, AI Integration, Google Antigravity, Claude Code, OpenAI APIs

PROJECTS

Quirious 🌀 | React.js, Express.js, MongoDB, TailwindCSS, RESTful APIs, JWT Authentication

- Engineered full CRUD API (Express.js, Mongoose) that supported creation, editing, preview, and deletion of 200+ quizzes, reducing manual setup time by 40%.
- Developed a quiz engine using React Hooks that autoscored 100+ responses with realtime progress tracking, boosting user completion rates by 25%.
- Architected secure, scalable backend APIs (MongoDB, bcrypt) handling 10+ daily requests with 50%.

Ledgerly 🌀 | JavaScript, React.js, TailwindCSS, Express.js, Node.js, MongoDB, Authentication, Routing

- Built a full-stack expense management application supporting 200+ transaction records with complete CRUD functionality through 7+ RESTful API endpoints for efficient financial tracking.
- Optimized user experience with real-time form validation, responsive layouts, and intuitive navigation, resulting in 35% faster expense logging and improved cross-device usability.
- Designed scalable backend services with Express.js, MongoDB, Mongoose, CORS, and dotenv that processed 10+ daily transactions while maintaining secure client-server communication

Bloggy 🌀 | React.js, Tailwind CSS, Express.js, MongoDB

- Built complete blog publishing workflows, including creating, viewing, editing, and deleting posts through RESTful APIs and seamless client-server communication.
- Created a responsive, component-based interface using React Hooks and Tailwind CSS that delivered an intuitive writing and blog management experience, increasing average session duration by 40%.
- Implemented secure and scalable backend services with Express.js, MongoDB, Mongoose, CORS, and dotenv, enabling efficient content management and handling 500+ monthly posts with strong data persistence.

EDUCATION

Dr. Akhilesh Das Gupta Institute of Professional Studies

Bachelor of Technology, Computer Science and Engineering

CGPA: 8.2

Status: Currently Pursuing

September 2023 – July 2027

Shastri Park, Delhi

Faridabad Model School

Senior Secondary Education

April 2016 – March 2023

Faridabad, Haryana

Class X: 96%

Class XII: 94%

JEE Mains: 92.2 Percentile
